ALL NICE FIELD GROWN

Excepting Peonies, No Perennials Sold in Quantities Less Than Six of a Variety

	per doz.	100
ACHILLEA <i>Boule de Neige</i> (<i>Ball of Snow</i>)—An improvement on the Pearl. Wonderful for cut flowers or garden.	.75	5.00
ALYSSUM <i>Saxatile Compactum</i> —An indispensable plant for the rockery or border, growing 1 foot high and producing in May masses of broad, flat heads of bright yellow flowers.	.75	5.00
ANCHUSA <i>Italica</i> , <i>Opal</i> —A tall-growing, beautiful for-get-me-not, light blue, extra fine.	1.00	7.00
ANTHEMIS <i>Tinctoria</i> (<i>Marguerite</i>)—Show two color yellow daisy-like flowers.	.75	5.00
AQUILEGIAS or COLUMBINES —The Columbines are one of the most elegant and beautiful of hardy plants, and usually make themselves at home in any hardy border. Their period of flowering covers the late spring and early summer months. Taken as a whole, they are a most important part of the hardy garden, and should be grown in quantity by every lover of old-fashioned garden flowers.	.60	4.00
Canadensis (<i>American Columbine</i>)—The native bright red and yellow variety.	.75	5.00
Chrysantha —White long-spurred flowers.	.60	4.00
Chrysantha —Yellow long-spurred flowers.	.75	5.00
Coerulea (<i>Rocky Mountain Columbine</i>)—Bright blue and white long-spurred flowers.	.75	5.00
Long-spurred Hybrids —A magnificent strain in many beautiful shades.	.60	4.00
Skinneri —(<i>Mexican Columbine</i>)—Yellow with long orange-red spurs.	.75	5.00
ARTEMESIA <i>Lactiflora</i> —Is a most effective flowering plant, with erect stems 3½ to 4½ feet high, clothed with elegantly cut dark green foliage and terminated by panicles of creamy-white Spirea-like light and graceful flowers. It is at its best from the latter part of August to the end of September, and is particularly valuable on this account; being unlike any other plant in bloom at that time.	.75	5.00
ASTERS, Hardy, Fall-flowering (<i>Michaemas Daisies</i>)—These are among the showiest of our late-flowering hardy plants, giving a wealth of bloom during September and October.		
NEW HARDY ASTER CLIMAX —A wonderful new flowered light blue Hardy Aster. Without question the most showy of all. These plants will give perfect show very large first year.	1.50	12.00
Novae Angliae —Bright purple, 4 ft.	.60	4.00
“ “ Pink. A tall growing fine rose pink.	.75	5.00
Ptarmicoides Major —White, fine for cutting. Very dwarf.	.75	5.00
White Queen —White, fine, 3 to 4 ft.	.75	5.00
BAPTISIA <i>Australis</i> (<i>False Indigo</i>)—A strong growing plant, about 2 feet high; suitable either for the border or wild garden, with dark green, deeply cut foliage and spikes of dark blue, lupine-like flowers. Strong 1 yr.	.60	4.00
BOLTONIA <i>Asteroides</i> —Among the showiest hardy perennial plants, with large single Aster-like flowers. The plant is in bloom during the summer and autumn months with its thousands of flowers open at one time producing a very striking effect. Pure white, very effective, 5 to 7 ft.	.60	3.00
Latisquama —Lavender pink, 4 to 5 ft.	.75	5.00

See My Peonies in June

June is also a good time to buy for fall planting

	per doz.	100		per doz.	100
CAMPANULA Calycanthema (<i>Cup and Saucer Canterbury Bells</i>)—This is unquestionably the finest type of this old-fashioned and much-prized garden plant. They differ from the ordinary type in having an extra large calyx, which is of the same color as the flower, giving the appearance of a cup and saucer. They are effective either in the garden or grown in pots for conservatory or table decoration. Pink, white and blue.	.75	5.00	old flowers will bloom until fall.	.75	4.00
Pyramidalis (<i>Chimney Bell-flower</i>) The most conspicuous of all Campanulas, forming a perfect pyramid 4 to 6 feet high, crowded with large salverlike white flowers. By dozen only.	1.00		DELPHINIUM (<i>Perennial Larkspur</i>)—Indispensable to the herbaceous garden. Their long showy spikes of flowers persist from June till frost and furnish the most satisfactory blues to any color scheme.		
CHELONE Lyonii (<i>Shell Flower</i>)—Heads of showy deep rosy-red flowers. Stately and handsome perennials, growing about 2 feet high and bearing numerous spikes of large flower-heads during the summer and fall.	1.00	7.00	Belladonna—The Everblooming Hardy Larkspur —The most continuous blooming of all, never being out of bloom from the end of June until cut down by hard frost. The clear turquoise-blue of its flowers is not equalled for delicacy and beauty by any other flower.	.75	5.00
CHRYSANTHEMUMS LARGE FLOWERED HARDY OLD-FASHIONED (Clumps) —The fragrant old-fashioned kind that you have seen along side the farm house and in the old-fashioned garden.			Chinensis Blue —A very pretty dwarf variety with fine, feathery foliage and intense gentian-blue flowers in open panicles. By dozen only.	.60	
Autumn Glow —Rose Crimson.	.85	6.00	DIANTHUS Barbatius —See <i>Sweet William</i> .	.50	3.00
Golden Queen —Yellow.	.85	6.00	DICTAMNUS (<i>Gas Plant</i>)—A very showy perennial, forming a bush about 2½ feet in height, having fragrant foliage and spikes of curious flowers during June and July, giving off during hot weather a fragrant volatile oil, which ignites when a match is applied.		
Indian —Indian red.	.85	6.00	Alba —Pure white.	.85	6.00
Old Homestead —Pink.	.85	6.00	Fraxinella —Showy rosy-pink flowers, with deeper veins.	.85	6.00
HARDY POMPONE CHRYSANTHEMUM Excelsior —Fine deep yellow.	.85	6.00	DIGITALIS (<i>Foxglove</i>)—Mixed.	.75	5.00
CLEMATIS Recta —A fine erect sort. One of the best hardy perennials, with handsome pure white flowers, in very large, showy clusters during June and July; very effective, fragrant. By dozen only.	1.00		HARDY ORNAMENTAL GRASSES Can be used with telling effect in borders, large beds, or by the margin of ponds and lakes. They are often used with small shrubs and medium sized trees in wide borders. The Eulalias, planted singly on lawns where the soil is deep and rich, take care of themselves, and grow rapidly into large specimens and in large, round beds, with ornamental Grasses as the principal feature.		
COREOPSIS Grandiflora —Good shades of yellow that are desirable for cut flowers, and that make a grand display in the garden are scarce. In this we have perfection in both. Flowers as large as Cosmos, a most beautiful yellow, with good long stems. Every one that likes yellow will find this grand for cutting. Blooms in June and July.	.75	4.00	EULALIA Gracilis Univittata —This plant is of most graceful habits and is very useful for decorating purposes. The best ornamental grass in cultivation.	.60	4.00
Lanceolata —A beautiful hardy border plant, grows 15 to 18 inches high and produces its bright golden yellow flowers in great profusion. Best for hardy border. By cutting off			Japonica Zebrina (<i>Zebra Grass</i>) Leaves crossed every two or three inches by a band of yellow half an inch wide.	.60	4.00
			Japonica Variegata —Long, narrow leaves, striped with green and white.	.60	4.00
			EUPATORIUM Ageratoides (<i>Thoroughwort</i>)—A useful border plant, of strong, free growth with minute white flowers in dense heads; Au-		

	per doz.	100		per doz.	100
gust and September.	.85	6.00	Middendorffiana —Dwarf growing with clusters of lily flowers five to six inches long; bright yellow.	.60	4.00
FOR-GET-ME-NOT (<i>Myosotis Palustris Semperflorens</i>)—A variety that is hardly ever out of flower; useful in a shady spot in the border and for forcing for cut flowers in the winter.	.75	5.00	Thunbergii —Lemon yellow the latest blooming of all Lemon lilies. September and October.	.60	4.00
FOXGLOVE —See <i>Digitalis</i> . Mixed.	.75	5.00	HEPATICA (<i>Liver Leaf</i>)		
FUNKIA (<i>Day Lily</i>)			Triloba —A pretty native spring flowering plant, with pretty blue flowers.	.60	4.00
Undulata Variegata —Graceful green leaves having fluted white edge. Very conspicuous plant for border.	.75	5.00	HIBISCUS MALLOW MARVEL —Without exception the finest production in the Hardy Plant line in years. They make a bush-like growth from 5 to 6 feet high and 3 to 4 feet across. The flowers are of an enormous size, frequently 8 to 10 in. in diameter ranging in color from fiery crimson through various shades of red, pink and white. Should be in every garden as it is perfectly hardy, will thrive in any locality or kind of soil, and blooms continually from July until late fall.		
GAILLARDIA Grandiflora —This is considered one of the most beautiful and desirable plants in cultivation, beginning to bloom in June; they continue one mass the entire season. Base of petals are scarlet crimson, bordered golden yellow. A most beautiful combination. This is the true <i>Grandiflora</i> grown from divisions.	.60	4.00	Pink Mallow Marvels —2 yr.	1.00	8.00
GYPSOPHILLA Paniculata —(<i>Baby's Breath</i>)—A beautiful old-fashioned plant, possessing a grace not found in any other perennial and attracting the eye of everyone. Dense spreading bush, numerous tiny flowers in light feathery panicles, delicate foliage, good for cutting, excellent for border or large rock gardens. July and August. 1 yr.	.75	4.00	White Mallow Marvels —Strong divisions.	1.00	8.00
HELIANTHUS —Large single, early and late blooming.			Red Mallow Marvels —Strong divisions.	1.00	8.00
Orgyalis —A tall variety, 6 feet high, with medium-sized, single, golden-yellow flowers during September.	.85	6.00	Mixed Mallow Marvels —Strong divisions.	.85	6.00
HELIOPSIS Gratiissima —Much superior to <i>Zinnia</i> flora, fine dark green foliage, one of the finest shades of yellow for cut flowers, and a grand showy plant for the garden; 2 to 3 ft.	1.50	10.00	HOLLYHOCKS Single —One of the most stately, picturesque and beautiful plants in the world. Nothing can be more effective than a large group or mass of single Hollyhocks, and once planted they will literally take care of themselves. Extra fine assortment, mixed.	.60	4.00
HEMEROCALLIS (<i>Yellow Day Lily</i>)			IRIS, German or Orchid-flowered, Fleur-de Lis —Bloom in May and June.		
Belonging to the Lily family. They succeed everywhere, and should always be included in the border of old-fashioned hardy plants.			Florentina Alba —Very early large white.	.60	4.00
Auran'iaca —Large beautiful bright apricot yellow.	.75	5.00	Her Majesty —Rose crimson.	.60	4.00
Flava (<i>Lemon Lily</i>)—Crowned by beautiful lemon-colored flowers 3 to 4 inches in diameter and delightfully fragrant. May and June.	.60	4.00	Ivory —Very large, extra early, white.	1.00	7.00
Luteola —A cross between <i>Aurantiaca</i> major and <i>Thunbergii</i> . Fine orange yellow; large and very free flowering. 2½ ft. Late.	1.00	8.00	Lohengrin —Lilac rose, very large.	1.00	7.00
			Mad. Chereau —White, blue margin, very fine.	.60	4.00
			Mad. Paquette —Deep claret red, nearest solid red.	.60	4.00
			Mrs. H. Darwin —Pure white, falls slightly reticulated violet at the base, very beautiful and very free flowering, 2 feet. Late.	.60	4.00
			Monseigneur (<i>Monsignor</i>)—Velvety purple-crimson, with lighter margin; large flower. By dozen only.	6.00	
			Midnight —A rich maroon purple, the finest in this color, a fine cut flower.	2.00	15.00
			Parisisensis —Large, showy, deep purple.	.60	4.00

	per doz.	100		per doz.	100
Queen of May —Lavender pink.	.60	4.00	LINUM Perenne —Foliage is fine and graceful, with flowers shaped like those of Phlox. Bloom all summer. Clear delicate blue.	.60	4.00
Queen Emma —Queen of White German Iris. By dozen only.	1.00		LOBELIA Syphilitica Hybrida (<i>Great Lobelia</i>)—A choice selection of our native Lobelia, producing large spikes of flowers. Various shades of blue. 2 to 3 feet. July to September.	.85	5.00
IRIS Pseudo Acorus —Bright yellow. May and June. Does best in wet places.	.60	4.00	LYCHNIS		
IRIS ORIENTALIS			Chalcedonica —A most desirable plant, heads of brilliant orange-scarlet, grows 2 to 3 feet high and blooms all summer.	.75	4.00
Blue King —Clear blue. Found by Mr. Peter Barr in Japan.	.75	5.00	LYSIMACHIA Nummularia (<i>Creeping Jenny, or Moneywort</i>)—Valuable for planting under trees or shrubs where grass will not grow, where it quickly forms a dense carpet.	.75	5.00
Sanguinea —Intensely brilliant blue flowers, the bud being inclosed in conspicuous crimson spathe valves. Dwarf.	.75	5.00	MERTENSIA Virginica (<i>Blue Bells</i>)—An early spring-flowering plant, growing about 1 to 1½ feet high, with drooping panicles of handsome light blue flowers. April and May.	.60	4.00
Snow Queen —An exquisite hardy Iris; flowers of a snowy whiteness, large and well-formed, produced in great abundance, foliage light and graceful. A gem for flower border or waterside, 2 to 3 feet high. Award of Merit.	.60	4.00	MONARDA, Cambridge Scarlet (<i>Bergamot</i>)—Brilliant crimson scarlet. Showy plants, growing from 2 to 3 feet high, succeeding in any soil or position, with aromatic foliage, and producing their bright flowers during July and August.	.75	5.00
Superba —Large, violet-blue, handsome foliage, reaching almost to the flowers. 2 to 3 ft.	.75	5.00	PERENNIAL PEA —Pink. Blooms from July till frost.	.60	4.00
Iris Siberica —Purplish blue, 3 feet high very desirable. Tall. June.	.60	3.00	PINKS Plumarius —Single Hardy Scotch. One of the quaint, old-fashioned, fringed flowers; the kind that appeals to everyone by its delightful Scotch pink fragrance. This strain is made up of the finest sorts in cultivation; the flowers being unusually large and range in color from white to delicate pink and rich crimson, with rose and maroon centers.	.75	5.00
Iris Siberica Alba —Fine white. June.	.60	4.00			
IRIS Japan —The flowers are of immense size, from 6 to 8 inches in diameter. June and July.					
Gold Bound —Double white, yellow band center. The finest of all.	.85	6.00			
Purple and Gold —Double, deep bluish purple, yellow band, center each petal.	.85	6.00			
LATHYRUS Latifolius —See Perennial Pea. Pink.	.60	4.00			
LAVANDULA (<i>Lavender</i>)					
Vera —This is the true sweet Lavender; grows about 18 inches high; delightfully fragrant blue flowers in July and August.	.85	6.00			
LIATRIS Pycnostachya (<i>Blazing Star or Gay Feather</i>)—Most showy and attractive plant, producing large spikes of light rosy-purple flowers from July to September.	.85	6.00			
Scariosa —Late blooming branched spikes purple, 3 to 4 feet.	.85	6.00			
LILY Superbum —A beautiful native variety; bright reddish-orange, spotted; 6 feet; August.	.85	6.00			
Tigrinum Splendens (<i>Tiger Lily</i>)—Very large flowers; orange, spotted black.	.85	6.00			
Henryi (<i>Yellow Speciosum</i>)—One of the finest hardy lilies, of strong, vigorous growth, with flower stalks 3 to 5 feet long; deep apricot-yellow, lightly spotted brown. By dozen only.	3.50				

PHLOX

STRONG FIELD GROWN

Athis —Salmon.	.60	4.00
Antoine Mercie —Lavender.	.60	4.00
Bridesmaid —Blush red eye.	.60	4.00
Charlotte Saisson —White, cherry red blotch in center.	.60	4.00
Danton —Scarlet with purple-red eye.	.75	5.00
Grideur —Ground color soft mauve-rose, heavily suffused and overlaid with a lively deep shade of cerise, giving		

	per doz.	100
the whole a beautiful mottled appearance. By dozen only.	1.25	
Pantheon —Rose pink.	.60	4.00
Peach Blossom —Peach blossom pink.	.60	4.00
Thor —A most beautiful and lively shade of deep salmon-pink, suffused and overlaid with a scarlet glow. A light almost white halo surrounds the analine red eye. This lovely variety will hold the same place among the deep salmon pinks that the popular Elizabeth Campbell holds among the light salmon-pink sorts. By dozen only.	1.25	
EARLY FLOWERING HARDY PHLOX		
Miss Lingard —Longest spikes of any Phlox—blossoms from the ground up. Waxy white, lavender eye.	.85	6.00
PHYSOSTEGIA Virginiaica —American Heather, lavender pink.	.60	4.00
PLATYCODON Grandiflorum —Chinese Bell flower. June to September.		
Blue.	.60	4.00
Alba —White bell flower.	.60	4.00
PLUMBAGO Larpentae —Intense blue, dwarf, fine for border. August and September.		
	.85	6.00
POLYGONUM Multiflorum Compactum		
Grows about 15 inches high, and during August and September the entire plant appears as a foamy mass of white flowers.	.75	5.00
HARDY POPPIES —Among the most welcome flowers that glorify the early spring and summer, are the big, glowing, nodding Poppies.		
Mrs. Perry —An attractive shade of coral pink.	1.25	10.00
PYRETHRUM Hybridum (Painted Daisies) —Red, white and pink, blooms in June and July, a most beautiful, hardy plant.		
	.60	4.00
PYRETHRUM Uliginosum (Giant Daisy)		
Covered with large white daisy-like flowers, 3 inches in diameter, from July to September.	.85	6.00
RUDBECKIA —Indispensable plant for the hardy border; grow and thrive anywhere, giving a wealth of bloom, which are well suited for cutting.		
Golden Glow —We question if any one hardy perennial plant has ever met greater popularity than this. It is a strong robust grower, attaining a height of 5 to 6 feet and produces masses of double golden yellow Cactus Dahlia-like flowers from July to September.	.50	3.00

	per doz.	100
Purpurea (Purple Cone-flower) —Large drooping petals colored reddish purple, with a remarkably large cone-shaped center of brown, thickly set with golden tips in spiral lines. 2 to 3 feet. July to October.	.60	4.00

PEONIES

Plant Large Clumps

YOU DON'T HAVE TO WAIT TO GROW
SMALL PLANTS INTO LARGE CLUMPS

THREE YEAR OLD,
UNDIVIDED CLUMPS

Every One a High Class Peonie

	(6)
Delicatissima —Soft pink changing to flesh; very delicate coloring; early.	.75
Dorchester —Beautiful shell pink. Free bloomer, fine cutting and garden sort, late.	.75
Duchess de Nemours —Large, creamy white, especially fine. The leading white Peony for cut flowers bearing nearly twice as many flowers as any white in cultivation. Also valuable garden variety.	.50
Felix Crousse —Large, ball-shaped bloom; very brilliant red; one of the finest self-colored varieties.	.75
Festivea Maxima —Very large, clear white tipped with streaks of red.	.50
L'Indispensable —Very large full flower of shell pink. The petals are packed very tightly, sometimes occasioning a bursting bud.	.75
Meissonier —Deep dark rich red, known as the American Beauty Peony; extra fine.	.50
Mons Jules Elie —The peerless pure pink. One of the largest, handsomest and most lasting cutting sorts in existence. Proven by commercial competition, the finest exhibition peony.	1.50
Richardson's Rubra Superba —Very late. Magnificent, rich brilliant, deep crimson, without stamens, very large, full and double; highly fragrant, and the best keeper of the whole family. It is decidedly the best late. Absolutely indispensable in any fine collection.	1.50
Virginie —Large, beautiful, water-lily pink. A magnificent bedder; foliage concealed by bloom; loose, globular heads open out to Anemone shape, 8 inches across. From bright rose to	

	per doz.	100		per doz.	100
blush white, with thick collar and center of deepest yellow.	.75		very minute, similar in form to the Forget-me-not, but made into heads 18 inches or more across.	.75	5.00
For Fall I will have the following to offer in addition to the above list.			STOKESIA Cyanea (<i>The Cornflower or Stoke's Aster</i>)—A most charming and beautiful plant. Grows from 18 to 24 inches high, bearing freely from early in July until October its handsome Cornflower-like blossoms which measure from 4 to 5 inches across. Lavender blue.	.60	4.00
Sarah Bernhardt —True.			Cyanea Alba —White.	.60	4.00
Germain Bigot.			SWEET WILLIAM		
Albert Crousse.			Vaughan's Special —Mixed.	.50	3.00
Octave Demay.			TRILLIUM Grandiflorum (<i>Wood Lily or Wake Robin</i>)—Excellent plants for shady positions in the hardy border, or in a subaquatic position, flowering in early May; large white; the handsomest of all.	.50	3.00
James Kelway.			VERONICA Amethystina (<i>Speedwell</i>)—Amethyst blue flowers in May and June.	.75	5.00
Lamartine.			Incana —Bright silvery foliage, with spikes of amethyst-blue flowers. July and August; 1 foot.	.75	5.00
La Perle.			VINCA Minor (<i>Periwinkle or Trailing Myrtle</i>)—An excellent dwarf evergreen trailing plant that is used extensively for carpeting the ground under shrubs and trees, or on graves where it is too shady for other plants to thrive.	.75	5.00
La Tulip.			YUCCA Filamentosa (<i>Adam's Needle</i>)—A hardy evergreen plant with long narrow leaves that are bright green the whole year. The flowers are creamy white, bell-shaped, produced on long spikes three to four feet high. Fine stately lawn plant. Extra fine plants. 2 yr.	1.00	6.00
Livingstone.			Large clumps.	2.00	15.00
Marguerite Gerard.					
Marie Jacquin.					
Mme. Forel.					
Mons Dupont.					
Mme. Emily Galle.					
Venus.					
Eugenie Verdier.					
Etc. Etc.					
Also 24 varieties of Japanese Herbaceous Peonies.					
	per doz.	100			
SALVIA Azurea Grandiflora —A Rocky Mt. species, growing 2 to 3 ft. high producing during August and September pretty sky-blue flowers in the greatest profusion.	.75	5.00			
Pitcheri —Similar to the above but of more branching habit and larger flowers of a deep blue color. Very beautiful in September and October.	1.00	7.00			
SEDUM Sieboldii —3 to 4 inches. August to September. Flowers bright pink. Rare and choice. By dozen only.	1.00				
SHASTA DAISIES —Large flowered improved hybrids.	.60	4.00			
SOLIDAGO (Golden Rod) — Golden Wings. The finest of all; 5 feet high with immense panicles of bright golden-yellow flowers from July to September. By dozen only.	.75				
SPIREA Filipendula —Corymbs of single white flowers on stems 18 inches high, during June and July, and pretty fern-like foliage. By dozen only.	1.00				
STATICE Latifolia (<i>Sea Lavender</i>) Grows 15 to 18 inches high with tufts or clumps of thick, leathery foliage and immense panicles of delicate blue flowers. Individual flowers					
			POT PLANTS —2½ in.		
			ANEMONE Japonica (<i>Wood Flower</i>)—A most valuable class of hardy plants.		
			Alba —Purest white with yellow center.	.75	5.00
			Queen Charlotte —Flowers semi-double, broad and perfectly formed of that pleasing shade of pink found in La France Rose.	.75	5.00
			HELIANTHUS (<i>Max Milliana</i>) Maxmilliana	.75	5.00
			POPPY Oriental Red	.75	5.00

ROSES

	per 100	per 1000
Rosa Setigera—All modern landscapers are now giving recognition to its merits and usefulness, by massing in picturesque hillside brambles; as borders to wildwood drives; as filling for dead corners; and with equal harmony, as a congenial mixer with shrubs and in single specimens. Large single flowers in abundance; color, a bright rose pink. Strong 2 yr. field grown. Cut back to 3 ¹ / ₂ ft.	6.00	50.00
Rosa Rugosa—A valuable, perfectly hardy type much used in landscape work; the heavy wood and shrubby formation adapting it to hedges and hardy borders, or to mixed shrubbery groups. The foliage is lustrous, dark green, usually corrugated. Flowers are borne in clusters of		

per 100 1000
varying size and construction, and are succeeded by persistent fruits which carry their usefulness into winter. 2 yr. field grown. 7.00

Rosa Spinosissima—Altaica A very pretty species with large single white flowers followed by dark purple red fruit in the autumn, which contrasts beautifully with its fern-like foliage when it assumes its autumn coloring. 15.00

SHRUBS

	(a)
BARBERRY (Berberis)—Useful and highly ornamental shrubs that are hardy everywhere. Their masses of white, yellow or orange flowers are showy in spring; their dainty leaves color brightly in fall; their scarlet, blue or black berries are persistent through most of the winter; their dense growth and sharp spines making them invaluable for hedges.	
Canadensis—(American Barberrry)—	
With bright green, broad foliage which turns to beautiful shades of orange-red and bronze in the fall. Its fruits are particularly bright and showy.	
18 to 24 inches.	.04
2 to 3 feet.	.05
3 to 4 feet.	.07
CALYCANTHUS—18-24 inches.	.06
CLETHRA Alnifolia (Sweet Pepper Bush)	
A handsomelittle shrub, delightfully fragrant in September when covered with long, showy wands of white flowers. It is valuable for the front of the border.	
18 to 24 inches.	.08
2 to 3 feet.	.12
CORCORUS Japonica Variegata—One of the choicest of the dwarf growing shrubs and always scarce. The foliage is small, dense and profuse, so variegated with white as to present a striking appearance of silver. The flowers are as large and yellow as on the taller type, and appear at intervals all summer. 18 to 24 in.	.10
DEUTZIA Gracillis—Dwarf growing, densely bushy, its drooping branches wreathed with pure white flowers in May. Also valuable for winter blooming in pot. 15 to 18 inches.	.07
Pride of Rochester—3 to 4 feet.	.08
FORSYTHIA Fortunei (Golden Bell)	
These splendid old shrubs, growing	

		(a)
8 to 10 feet tall eventually, light up the garden with glinting masses of yellow, very early in spring before the leaves appear. Their bright golden flowers, often appearing before the snow is gone, vie with the Crocus as harbingers of spring.		
2 to 3 feet.		.07
3 to 4 feet.		.09
4 to 5 feet.		.12
GOLDEN ELDER <i>Sambucus Aurea</i> —Although these shrubs are attractive in flower and fruit, they are chiefly grown for their beautiful leaves. Contrasted with other shrubs, the golden yellow leaves of this European Elder give heightened effects in tone and color. Flowers white.		
2 to 3 feet.		.06
3 to 4 feet.		.08
4 to 5 feet.		.12
LONICERA (<i>Japanese Bush Honeysuckle</i>)		
Morrowi —The upright Honeysuckles have bright and pretty fragrant flowers followed by showy berries that last through the fall. Make very desirable and attractive hedges.		
2 to 3 feet.		.08
3 to 4 feet.		.12

“	“ 3 to 4 feet.	.08
RHODOTYPUS <i>Kerrioides</i> (<i>White Kerria</i>)		
An attractive shrub 3 to 6 feet high, with beautiful yellowish green foliage and large, single white flowers late in May. The black seeds which follow are odd and showy. 2 to 3 ft. .10		
SYMPHORICARPOS (<i>Snowberry</i>) <i>Mollis</i>		
Large Fruited Snowberry. An improved form of <i>symphoricarpus racemosus</i> , with a more pretty and graceful outline and large, white		

berries, of which the plant is covered in autumn, forming a very pleasing contrast if grouped with *berberisthunbergii*, or with evergreens.

2 to 3 feet. .08

3 to 4 feet. .12

TAMARIX—Tall growing shrubs, 8 to 12 feet high, with fine feathery foliage like that of the Juniper; small usually pink flowers from April on. Splendid for seaside planting or other damp places.

Africani—Slender panicles of bright pink; reddish bark. 2 to 3 feet. .08

TREES

CORNUS *Florida* (*White Flowering Dogwood*)—Flowers white, 3 to 3½ inches in diameter, produced in spring before leaves appear; very abundant, showy and durable. Foliage grayish green, glossy and handsome; in the autumn turns to deep red, making the tree one of the most beautiful at that season. Spreading irregular form, growing 20 to 25 ft. high.

2 to 3 feet. .15

3 to 4 feet. .20

VINES

AKEBIA *Quinata*—A perfectly hardy, fast growing Japan vine, with magnificent foliage, producing flowers in large clusters, of chocolate purple color, possessing a most delicious perfume; unsurpassed for covering trellises and verandas, the foliage never being attacked by insects.

3 yr. .07

ARISTOLOCHIA *Sipho* (*Dutchman's Pipe*)—Brownish flowers, resembling a miniature pipe. This is an ideal vine for situations requiring dense shade. Splendid for archways or verandas. The leaves are very large, broad and closely laid; deeply green, and vine grows rapidly.

3 yr. .15

HONEYSUCKLE *Belgica* (*Monthly Fragrant*)—One of the prettiest with numerous sprays of red and yellow.

2 yr. .05

KUDZU VINE (*Puereria Thunbergiana*) Large foliage and dense shade, growing 50 feet in one season. Flowers plentiful in August; rosy-purple, pea-shaped—in small racemes. Field grown. .05
